## Hero Ingredients

### Saccharomyces Ferment (Deodorizer)

- With enzymes that provide bioconversion of a wide range of malodorous substances.
- Eliminates odors caused by perspiration, human waste, vomit, cigarette smoke, food, mildew, pets, and depilatories.
- It is naturally occurring with live enzymes that breakdown sweat molecules and effectively fight both odor and wetness.
- Promotes the decomposition of sweat molecules & the primary source of body odor.
- Wide spectrum of odor reduction effectiveness.
- Natural ingredients from vegetables.

### Glycerin (and) Water (and) Avena Sativa (Oat) Kernel Extract

- Clinical studies have proven that oats help dry and itchy skin, reduce heat and alleviate redness.
- Clinically proven therapeutic activity from this extract's high levels of polyphenols and anthocyanins.
- Powerful natural anti-oxidant and anti-irritant properties.
- Soothing agent.
